

DIVISION 4 EXAMPLES

These examples are generic typical roadway plans, which are intended for use by the project designer and are not relevant to each other. They represent a few examples of different ways to produce plans. There are no examples of plans typically produced by specialty support groups; i.e. Signalization, Traffic Control, Bridge, ITS, Architecture etc.

These examples are now 8 1/2 x 11 for the July 2004 update. If you would like to view them or print them in 11 x 17 for your manual go to:

<http://www.wsdot.wa.gov/eesc/design/projectdev/PlansPrepDivisions.htm>

Select Division 4

Select Examples

Select the Example you would like to print and open it.

Select File/Page Setup

Change the Page Size to 11 x 17

Change the Orientation to Landscape

Select OK

Select File/Print

Select OK

This will print the example in the 11 x 17 format
